TEXAS REPORTS ON BIOLOGY AND MEDICINE
VOLUME 26, 1968
No. 1: 1–142; No. 2: 143–258; No. 3: 259–452; No. 4: 453–636

Subject Index

Adeno-hypophyseal mucoid cells, human, cell type correlation, classification and glycoprotein characterization in (Phifer) abstr 438
Adrenal cortex and thyrocalcitonin, interrelations between (Thompson) abstr 444
Adrenocortical cells, some morphological effects of diazacholesterol on (Yates et al) 241
Androgen-sterilized female rat, effects of melatonin and serotonin on (Vaughan) abstr 448
Angiography, the subtraction technique: a valuable adjunct to (Schreiber & Autengruber) 123
Antibiotic sensitivities, early detection of, by use of fluorescent brighteners (Galen) abstr 425
Antibody duration after antiserum (Anigstein and Anigstein) 273
Arteriography and vectorcardiographic, selective cine coronary, diagnoses: correlative study of 100 patients (Maron) abstr 433
Artery pulse wave, central retinal, reconstruction of (Shawaluk) abstr 442
Autoimmune disease: further studies on renal lesions of New Zealand black (NZB/BL) strain mice (Yumoto & Dmochowski) 381
Autoradiographic technique for insect cell monolayers in Rose multipurpose tissue culture chambers (Eide) 303

Bacterial polysaccharides, antiviral properties of selected (Hamilton) 427
Blood cell, red, DF^{32}P survival in mice following x-irradiatioln (Tyson) abstr 446
Blood cells, red, mechanisms of the incorporation of selenium into (McConnell et al) 535
Blood gas measurements, routine, during major operations (Chase) abstr 418
Breast, human, tissue problems involved in culturing (Whitescarver et al) 613

Carbamyl phosphate synthetase, kinetic studies on rat liver (Kerson) abstr 430
Carcinoma, mouse mammary, transplantation of, through matrix tissue cultures (Kalus et al) 517
Carcinoma, pediatric renal (Sloane & Simpson) 629
Carcinosarcoma, Walker 256, effects on metabolism of serum proteins by (Folger) abstr 423
Cardiogenesis, effect of hyperbaric oxygenation on, in the albino rat (Miller) abstr 434
Cardiography, ballisto, on the potential of counterforce, for securing clinically relevant hemodynamic data (Steffin) abstr 443
Cardiopulmonary bypass, on-line computer monitoring of pressure/flow relationships during (Millar) abstr 434
Cardiopulmonary hemodynamic system, intact, of the dog, study of physiologic effects of paired pulse stimulation on (Schilling) abstr 441
Cardioversion, maintenance of sinus rhythm after: importance of quinidine (Phillips) abstr 438
Cephalothin, transfer of, across the human placenta (Morrow et al) 567
Cerebellar cortex of the frog, absence of long-term inhibition in (Bloedel) abstr 415
Cerebral concussion in monkey, transient

electrocardiographic change in experimental (Fernando) abstr 422
Cerebral edema in the rat, measurement of laser-induced, using ^{24}Na. (Benson) abstr 414
Cervical cord injury in the monkey, study of change of evoked potentials that occur following (Singer) abstr 442
Chloroquine enhancement of inflammation (Stone & Willis) 231
Circumfusion system, in situ embedding of cultures in chambers of (Kumegawa et al) 205
Cleft palate of infants, technical aspects of jackscrew appliances in the prevention of maxillary arch collapse in (Dricks et al), 253
Coccidioidomycosis, fatal pulmonary, systematic lupus erythematosus associated with (Andersen & Guckian) 93
Cold-shocked *E. coli*, automated measurement of methylene blue reduction by (van Soestbergen) 401
Colitis, ulcerative, an edipemiologic study of, in Galveston, Texas (Deskin) abstr 420
Collagen production in tissue cultures of new-born rat cerebellum and midbrain (Dickens) abstr 420
Copper and manganese, serum, a 24-hour rhythm in, of normal and adrenal medullectomized adult male rats (Scheving et al) 341
CR^{51} labeling of platelets (do Jongh & Shively) 181
Cryopathies, report of 3 cases and classification of: Raynaud's phenomenon as leading sign in lupus erythematosus (Kenamore et al) 189
Cryptorchidism, the effect of, on androgen production by the testes of C57BL/6J mice (Graviss) abstr 427
Cysteine, aryl, conjugates and protein biosynthesis (Morrison) abstr 435
Cystic fibrosis, oximetric studies in normal controls and in children with (Peter) abstr 437
Cytochrome C in the treatment of porphyria (Lang et al) 525
Daily rhythm in serum copper and manganese levels of normal and adrenal medullectomized adult male rats (Scheving et al) 341
Death rate of eminent scientists, the anomalous (Pankey) abstr 435
Diazacholesterol, some morphological effects of, on adrenocortical cells of the Syrian hamster (Yates et al) 241
3,4-dihydroxyphenylacetic acid, preliminary identification of and 3-methoxy-4-hydroxyphenylacetic acid in human urine as metabolites of epinephrine (Goodall & Alton) 105
Diploid rabbit skin cells, long-term cultivation of (Valenti & Friedman) 363
Diuretic, anti, hormone and size of renal papilla (Blount & Blount) 473
Dyskinesias in rats following chemical stimulation of the neostriatum (Dill et al) 101

Ecdysones, effect of, on maintenance and development of ocular imaginal discs in vitro (Burdette et al) 173
Editorial comment (Schreiber) 263
Electrode, biomedical silver-silver chloride, (Vandmoer) abstr 446
Electron microscopy embedding technique (La Vail) 215
Electron microscopy and thin section, xanthoma tendinosum, a localized benign reticulo-endotheliosis studied by (Chapman et al) 297
Enzyme activity, regulation of (Rechcigl, Jr.), 147
Enzyme induction in animal reproduction (Venson) abstr 448
Enzyme, liver, kinetic studies of, glucuronyl transferase: indications of multiplicity of the system and a new look at infant-adult comparisons (Temple) abstr 443
Epicardial sympathetic innervation of the canine heart, patterns of (Geis) abstr 426
Epinephrine, minor metabolites of (Goodall & Alton) 105
Escherichia coli, automated measurement of methylene blue reduction by

cold-shocked (van Soestbergen et al) 401
Escherichia coli RNAase II (Tolbert) abstr 445
Estrous cycle changes due to serotonin, melatonin, and estrogen in neonatal rats (Vaughan) abstr 447
Existential approach to psychiatry (Vanderpool) 163

Fibrillation, ventricular, myocardial electrolyte changes before and during, and following electrical defibrillation (Kaplan) abstr 430
Fibrocollagen, in vivo structured, antigenicity and tissue response of (Gold) abstr 426

Gastrin, hepatic destruction of synthetic (Merchant) abstr 433
Gaucher's disease, a study of the erythrocyte lipids in chronic adult type (Horwitz) abstr 429
Glomerulonenephritis of infectious mononucleosis (Tennant) 603
Gonads of sterile hybrid ducks, effect of hormones on (Rigdon) 581
Granulocytes, human, sulfated mucosubstances, basic protein, and peroxidase in (Dunn) abstr 421
Granulocyte kinetics, an analysis of perturbed (Ostlund) abstr 436
Granulomatous disease of childhood, recognition of carriers with (Cowett) abstr 418

Heartworm, dog, studies of in South Texas (Keegan et al) 321
Hemodigestive enzyme and *Vibrio cholerae* and El Tor vibrios (Kalsow and Newman) 493 and 507
Hemolysin and hemodigestive enzyme produced by strains of *Vibrio cholerae* and El Tor vibrios (Kalsow and Newman) 493 and 507
Hormones, effect of, on gonads of sterile hybrid ducks (Rigdon) 581
Hyaline membrane disease, an unsatisfactory method for experimental production of (Aslami et al) 249
Hydroxamic acids, effects of selected, on blood and certain organs of immature rats. (Blanton, Jr.) abstr 415
Hypernephroma in children (Sloane & Simpson) 629

Immunoglobulin G, analysis of molecular structure of—possible 6-chain configuration and its implications (Wolf) abstr 450
Immunoglobulin G, relation of some antigenic determinants of, to non-light chain portions of Fab fragments (Wolf) abstr 452
Indomethacin, prolonged survival of allogeneic skin grafts in guinea pigs treated with (Hemstreet) abstr 428
Inflammation, chloroquine enchancement of (Stone & Willis) 231
Inflammation, early cellular, and neoplasia control (Stone) 267
Inflammation, effect of oral iodides on (Mielens et al) 117
Insect cell monolayers, an autoradiographic technique for, in Rose multipurpose tissue culture chambers (Eide) 303
Insect hormones—ecdysones and ocular imaginal discs in vitro (Burdette, et al) 173
Insulin, bonito fish and sulfated pork, biological and immunological activity of (Rodrigo) abstr 439
Interferon—delayed death associated with statolon treatment of mice infected with mengovirus (Pindak & Schmidt) 573
Intestinal circulatory responses to altered motility (Thompson) abstr 444
I^{131}, effects of, on allografts of canine thyroid and parathyroid transplanted by vascular reconstruction (Byrne, Jr.) abstr 417
Iodides, oral, effect of on inflammation (Mielens et al) 117

Jackscrew appliances, technical aspects of, in the prevention of maxillary arch collapse in cleft palate of infants (Dricks) 253

Laser radiation, low energy ruby and neodymium, some effects of, on transplantable subcutaneous mouse tumors (Mims III) abstr 434
Lens, porcine, microsomal enzymes in (Swanson et al) 595
Leukemia, studies of human, and lymphoma cells by membrane immunofluorescence and mixed hemadsorption tests (Maruyama et al) 545
Leukemoid reactions (Kalus et al) 517
Lewis and Clark: Medicine's role in the corps of discovery and the northwest (McNeill & McNeill) 137
Limbic system, functional interconnections of, and basal ganglia (Pardue) abstr 436
Lupus erythematosus, Raynaud's phenomenon as leading sign in-three cases and classification of cryopathies (Kenamore et al) 189
Lupus erythematosus, systemic, associated with fatal pulmonary coccidioidomycosis (Andersen & Guckian) 93
Lymphocyte populations, assay for, quantitation of blastoid transformation (Townsend) abstr 445
Lymphocytes, human appendiceal, cultured with phytohemagglutinin (Airò et al) 461
Lymphocytes: Morphological, developmental, and functional characteristics in health, disease, and experimental study—an analytical review (Daniels, Ritzmann, and Levin) 5

Manganese and copper serum levels, a 24-hour rhythm in, of normal and adrenal medullectomized adult male rats (Scheving) 341
Membrane-immunofluorescence and human leukemia (Maruyama et al) 545
3-methoxy-4-hydroxyphenylacetic acid and 3,4-dihydroxyphenylacetic acid in human urine as metabolites of epinephrine (Goodall & Alton) 105
Methylene blue reduction, automated measurement of, by cold-shocked *Escherichia coli* (van Soestbergen et al) 401
Microsomal enzymes in porcine lens (Swanson et al) 595
Mononucleosis, infectious, the glomerulonephritis of (Tennant) 603
Myocardial function, effect of chronic exercise on (Crews) abstr 419
Myocardial infarction, experimental, produced by an implantable radiofrequency-sensitive apparatus (McMinn) abstr 432

NaCl treatment and renal papilla (Blount & Blount) 473
Neoplasia control, early cellular inflammation and (Stone) 267
Neostriatum, dyskinesias in rats following chemical stimulation of (Dill et al) 101
l-norepinephrine, effects of continuous infusion of, on the splanchnic circulation (Bashour et al) 285
Northwest, medicine's role in the corps of discovery and the northwest (McNeill & McNeill) 137

Octosporeosis of the black blowfly *Phormia regina*: effect of temperature on the longevity of diseased adults (Kramer) 199
Olfaction (poem) (Sinclair) 266
Oral cells, electron microscopy of, in vitro—III. in situ embedding of cultures in chambers of circumfusion system (Kumegawa et al) 205
Oral fluids, specific gravity of (Shannon) 349

Pacemakers, effects of electroshock treatment on (Bourianoff) abstr 416
Papillary muscle function in the canine left ventricle, direct examination of (Cronin) abstr 419
Parotid flow rate versus uric acid level in the human (Shannon and Chauncey) 223
Pediatric practice, an investigation of (Hessel) abstr 429
Phormia regina, octosporeosis of the black blowfly, effect of temperature on the longevity of diseased adults (Kramer) 199

Photoreactivation from the effects of 300 nm and 250 nm monochromatic ultraviolet radiation in albino mouse skin (Freeman et al) 309
Physical therapy, a functional rating scale for research in (Pool & Brown) 133
Phytohemagglutinin, human appendiceal lymphocytes cultured with (Airò et al) 461
Pinealectomy, changes in timing of ovulation in PMS-treated rats following (Dunaway) abstr 421
Placenta, human, transfer of cephalothin across (Morrow et al) 567
Plasma lipoprotein triglycerides of the rat, turnover rate: effect of anesthesia and of alloxan diabetes (Bein & Duncan) 414
Platelet survival, methods of evaluating (de Jongh & Shively) 181
Plaque formation, factors influencing rubella virus, in a rabbit cornea cell line (SIRC cells) (Rhim) 331
Poison ivy, delayed hypersensitivity and toxicity to catechols related to active principle of (Watkins) abstr 449
Porphyria, cytochrome C in the treatment of (Lang et al) 525
Pressor activity, comparison of, and renin content of the renal venous effluent in patients suspected of suffering from surgically remediable hypertension (Grollman & Ebihara) 313
Protein loss in peritoneal dialysis (van Gelder) abstr 447
Protein turnover, intracellular and molecular (Rechcigl, Jr.) 147
Psychiatry, existential approach to (Vanderpool) 163
Pulmonary mechanics, evaluation of a mathematical model for the contribution of alveolar surface properties to (Archie) abstr 413
Pulmonary vascular response to thermal trauma (Ferrell, Jr.) abstr 422

Rabbit skin cells, diploid, long-term cultivation of (Valenti & Friedman) 363
Radioiron incorporation by tissues of intact and splenectomized mice exposed to severe chronic hypoxia (Henkel) abstr 428
Renal cell carcinoma in children: two cases (Sloane and Simpson) 629
Renal lesions, further studies on, of New Zealand black (NZB/BL) strain mice (Yumoto & Dmochowski) 381
Renal papilla, adaptive changes in size of, with altered function (Blount & Blount) 473
Renal venous effluent in patients suspected of suffering from surgically remediable hypertension, comparison of the pressor activity and the renin content of (Grollman & Ebihara) 313
Reticulo-endotheliosis, a localized benign, xanthoma tendinosum, studied by thin section and electron microscopy (Chapman et al) 297
Retina, rat, ultrastructural observations of rat, in tissue culture (LaVail III) abstr 431
Rheumatoid factor activity, disorders associated with—clinical and laboratory studies (Wolf) abstr 450
RNA synthesized in the presence of 4-nitroquinoline-N-oxide, nearest neighbor base frequency analysis of (Ross) abstr 440
Rubella virus plaque formation, factors influencing in a rabbit cornea cell line (SIRC cells) (Rhim) 331

Sabin-Feldman dye test (Southern) 357
Saliva, parotid, specific gravity (Shannon) 349
Selenium levels, tissue, during the development of dietary liver necrosis in rats fed Torula yeast diets (Burk, Jr.) abstr 416
Selenium metabolism (McConnell et al) 535
Shigella flexneri in the mouse, quantitative study of the relationship of aerobic and anaerobic intestinal microflora to infection with (Lennard) abstr 431
SIA euglobulin test—a re-evaluation (Wolf) abstr 451
Spinal cord lesions, radio frequency, a

chronological study of the clinicopathological effects of (Flitter) abstr 423
Splanchnic circulation, effects of continuous infusion of l-norepinephrine on (Bashour et al) 285
Staining, dispersion, of human tissues (Flieder and Crossman) 485
Statolon, delayed death associated with, treatment of mice infected with mengovirus (Pindak & Schmidt) 573
Steroid secretion, onset of, and feedback in the immature rat (Baker) abstr 413
Steroids, profile of, in amniotic fluid, of normal and complicated pregnancies (Schindler) abstr 441
Subtraction technique: a valuable adjunct to angiography (Schreiber & Autengruber) 123

Thymectomy, the effect of, and a purified transfer factor on parabiosis and homograft immunity (Rose) abstr 439
Thymus antiserum, human or rat, serologic responses of mice inoculated with (Anigstein & Anigstein) 273
Thyroid disease, a computer program for the diagnosis of (Ford) abstr 424
Tissue culture embedding in chambers of the circumfusion system (Kumegawa et al) 205
Tissue culture, matrix, transplantation of mouse mammary carcinoma through (Kalus et al) 517
Tissue culture, rabbit: long-term cultivation of diploid rabbit skin cells (Valenti & Friedman) 363
Tissue cultures, method of embedding selected areas, for electron microscopy (La Vail) 215
Tissue, human breast, problems involved in culturing (Whitescarver et al) 613
Tissue, human, dispersion staining of (Flieder and Crossman) 485
Toxemia of pregnancy: A one-gene, one-enzyme disease? (Goodman) abstr 427
Toxoplasma dye test antibodies, prevalence of, in a medically indigent adult population in Dallas, Texas (Southern) 357
Tumor system, mouse, comparative study of effect of laser, x-ray and chemotherapy on (Rose) abstr 440
Tumors, mixed mesodermal, of the uterus (Kremper) abstr 431

Ultraviolet radiation in albino mouse skin, photoreactivation from the effects of 300 nm and 250 nm monochromatic (Freeman et al) 309
Uric acid level in the human, parotid flow rate versus (Shannon & Chauncey) 223
Uric acid metabolism and cerebral function, genetics of an x-linked disorder of (Pesek) abstr 437
Urinary porphobilinogen screening test, new (Castrow II) abstr 418

Vascular occlusions, peripheral, clinical detection of, using transcutaneous Doppler untrasound (Betts) abstr 415
Vibrio cholerae and El Tor vibrios, and hemolysin and hemodigestive enzyme production (Kalsow and Newman) 493 and 507
Virus and human leukemia antigen (Maruyama et al) 545
Vitamin B_{12}, the absorption of, in the guinea pig (Frentz) abstr 424

Water, total body, application of measurement of, to surgical patients (Cain) 417

Xanthoma tendinosum, a localized benign reticulo-endotheliosis, studied by thin section and electron microscopy (Chapman et al) 297
